2017.NOW update for the 2018.1 version of
the plugin! All you need is an AC-3 encoder
and a transcoder such as MediaCoder - . As
a user and not only as a plugin developer, I
am really happy to announce that I just
updated the free Antti Kiahlampuu plugin to
version 4.3.3. It still has an outstanding
variety of instrument presets and sounds as
well as an easy setup mode, but it also has
added a whole lot of other new features and
improvements. Best of all: It only works
with the latest DAW of you, if you are using
your DAW in Pro Tools or Cubase. If you
have problems with the latest update, feel

free to ask me for the update and installation files and I will do what I can to help you out.
