### **Elden Ring Review by DKMM9**

The story here in Elden Ring is exceptional, starting out with your choosing where you start, and sometime you feel that you can see your path, others, paths how you fit into it. Only leaving some part of our world than you can start new, in other words you hold the power of the beginning of the story. And the story how you see your life, and your story is never ending because that you play with others, so you can meet new friends, share them, encourage them. In other words, the game itself is fun and easy to play.

And i really like the crafting mode, and the stats you can do, you can make powerful weapons and the best of them, you can make potions, items, clothing, the best of them, and quest, your way how ever you want, even it seems that you need to contact with them, but in fact the real meaning to fight with them, when you kill the enemy, using the mission you can level up.

But the crafting mode is user-friendly, you may play the game like you never used them before, but using the RPG engines, become more and more interesting.

The game offers a multilayered story in an interactive fight and not just force you to take into what happens, you can ever find the truth.

I cant say that the game is perfect, for a normal game why the character will hit

6.0/10(r15) I wonder if the developers might have been told to make the game looked more like Skyrim a few years ago... After playing it, I realize that it isn't my favorite Elder Scrolls game. Sure, graphics, atmosphere, and animation are quite good, but there is too much of a difference from other games. One thing needs to be considered, even in a medieval setting (think of Skyrim), is that all people are dressed in modern outfits while in real life people are dressed in the style of the Middle Ages. That's it. At the same time, don't get me wrong, I like the game's concept and I like the art style, I just don't think it's designed for all the people. For instance, like with Skyrim, most people in it are wearing modern clothing, with some exceptions (like you find in the Abbey of Snowdrift Village). On one hand, it seems like Elder Scrolls games are so focused on realism, adding bells and whistles, that they are a bit

boring to me. I guess I can understand that the gameplay mechanic might be similar to all other Elder Scrolls games, but I feel the variety is lacking... At least there are no new ideas in gameplay that would mean the Elder Scrolls series is being reinvented, so it's not like it's done with a completely new mechanic. But that's it, Bethesda is focused on realism, and I think it is too often coupled with other aspects of realism, like magic and realism. There are plenty of great devs like Square Enix that are willing to add fantasy elements to their games, and what's interesting is that, maybe we'll see a better balance between fantasy and realism in future Elder Scrolls games. That's it, sorry if I ruined your adventure.

GAMEPLAY: 8/10 It's unfortunate, but I feel like it's not a good Elder Scrolls game... For me, some new ideas might have been added, some may have been taken from prior Elder Scrolls games, or game mechanics could have been improved a bit. For example, some people may find some bugs

(like I did) and also they may want to play online, and it's not as convenient as in Skyrim. Graphics: 9.0/10 I'm happy to see an Elder Scrolls game on a Nintendo console. The graphics are incredible, just like in Skyrim bff6bb2d33
