Adobe Fireworks Adobe Fireworks is a vector-based design tool that enables you to create graphical design elements such as lines, shapes, and rectangles. It is similar to Adobe Illustrator, although it is a little easier to grasp for the absolute beginner. You can use Fireworks to create simple designs for desktop and mobile websites and print or packaging materials. However, we recommend using Fireworks as a final step in your work — after the design has been created in Photoshop or with another design program. Fireworks enables you to work in a layout-based design environment. You can easily create graphic designs, as well as create typographic elements and illustrations. Fireworks features a powerful selection tool for creating vectors. You can
